

Marketing Agent Team

STATUS: PARTIALLY IMPLEMENTED — *Video production available via Video.Space, distribution and analytics still planned.*

Autonomous marketing content generation and distribution system with Video.Space integration.

Concept

The Marketing Agent Team leverages Vibemind's multi-agent technology to create and distribute marketing content. **Video production** has been implemented since March 2026 via **Video.Space** and simultaneously serves as product validation.

Video.Space Integration (Implemented)

Video.Space ([python/spaces/video/](#)) provides the production infrastructure for marketing videos:

Pipeline	Function	Tool
Team Video	Automated team presentations (10-step pipeline)	<code>video.team_run</code>
Vision Video	Sora AI-generated product visualizations	<code>video.vision</code>
Product Demo	Screen recording → professional demo videos	<code>video.demo_analyze</code> , <code>video.demo_build</code>
Lipsync	MuseTalk-based lip synchronization for team members	<code>video.lipsync</code>
Voice Clone	ElevenLabs-based voice cloning (with consent)	<code>video.voice_clone</code> , <code>video.voice_tts</code>

Note: *Video production is fully functional. Content distribution, A/B testing, and analytics are still planned.*

Planned Features

- **Content Generation Pipeline:** Automated workflow from concept to distribution
- **Data Research Agents:** Market trends, competitive positioning, customer pain points
- **Video Synthesis:** Implemented via Video.Space (Sora AI, MuseTalk, ElevenLabs)
- **Multi-Format Output:** Social media clips, explainer videos, product walkthroughs
- **Content Distribution Automation:** Automatic publishing to marketing channels
- **Performance Analytics:** Engagement tracking and conversion attribution

Roadmap

-
- Phase 1 (Q2 2026): Expand video format variety
 - Phase 2 (Q3 2026): Implement A/B testing framework
 - Phase 3 (Q3 2026): Localization agents for multilingual content
 - Phase 4 (Q4 2026): Real-time marketing response system
 - Phase 5 (2027): Enterprise marketing templates
 - Phase 6 (2027): Sales enablement content generation

Ecosystem Fit

The Marketing Agent Team serves as both marketing function and product demonstration: every generated video validates Vibemind's multi-agent capabilities. Additionally, it serves as an internal testbed for multi-agent coordination, external AI model integration, and content automation.
